Welcome to the 2015 school year!
This will be a huge year for our school - a sparkling new school with advanced technology for student learning and a high level of sophisticated operating systems that run the school.
As we “grow” into our new school there will be challenges for all of us. There will be excitement and at times frustrations as the defects across the site are rectified but this will be completed by the end of 2015. Many of our families visited the school on January 21st and there was a great sense of joy that a project that commenced four years ago is now a reality.

In Term 3 the official opening to celebrate the establishment of the school will be held.

This newsletter contains lots of information for you so here goes ……………
