4. Policy detail

4.1. Policy

- The Department for Education and Child Development will ensure that there is an effective complaints management system in DECD that supports the educational attainment and wellbeing of children and young people.
- The Department is open and responsive to receiving complaints from children, young people, parents, families and members of the community as a means of promoting continuous service improvement.
- Staff of the Department will make every effort to resolve complaints, preferably at the local level, in accordance with policy, procedures and guidelines.
- Where the Department is unable to resolve complaints internally, complainants will be provided with information about their avenues for seeking resolution and/or appeal externally.

4.2. Principles

DECD is committed to fair, effective and efficient complaint management, and DECD staff will demonstrate this commitment through their service delivery to children, families and community members.

DECD endorses a Three Level Model of Complaint Handling recognised as best practice in the Australian / New Zealand Standard (Guidelines for complaint management in organisations) AS/NSZ 10002:2014.

The Department will **enable** complaints by ensuring:

- Information about how and where a complaint may be made is accessible and transparent. Complainants are able to raise complaints through different means, including face-to-face at DECD sites, via telephone and email.
- Vulnerable populations and individuals with special needs are assisted to make complaints. People from non-English speaking backgrounds and cultures with strong oral traditions (such as Aboriginal and TIS people), people with disabilities, people who struggle with literacy, and children (especially children in care) may require assistance to formulate and document their complaint. They may also need to be connected to an advocate or support person who is able to assist them to pursue their complaint.

- The right for individuals to raise complaints is acknowledged, and complainants are treated with respect.
- Complainants are not adversely affected because they have made a complaint.

The Department will **manage** complaints by ensuring:

- Complaints are promptly acknowledged, assessed and prioritised in accordance with the urgency of the issues raised.
- Complaints management and resolution occur at a local level where-ever possible, and are only escalated where local resolution has not been successful.
- Complainants are advised if their matter is out of the scope of the Policy and are redirected to appropriate authorities where possible.
- Complainants are advised of the complaint process, expected timeframes, how they are able to contribute to the complaints management process, the possible outcomes, and avenues of review and appeal.
- Procedural fairness, objectivity and fairness requirements are adhered to.
- Unless resolved at the first point of contact, complaints will be documented (including information about the issues raised, any supporting documentation provided, the enquiries undertaken, and the outcomes achieved).
- Personal information is treated confidentially and is only used and disclosed in accordance with the Information Privacy Principles, confidentiality requirements in the *Children's Protection Act 1993*, and other legal and ethical obligations regarding privacy.
- Records of complaints will be documented, stored and managed in accordance with the Department's obligations under the *State Records 1997*, the Information Privacy Principles (Cabinet Administrative Instruction 1/89), and the relevant General Disposal Schedules.
- The legal, policy, procedural and factual basis for decisions are provided in communications with complainants, staff and others.

The Department will **support** parties involved in complaint resolutions by ensuring:

- The roles, responsibilities and expected behaviour of complainants and staff managing complaints are communicated.
- Policies and practices are established to ensure the health and safety of staff involved in complaint management.
- Policies and practices are established to manage unreasonable complainant conduct.
- Consultation and advice is provided to Site Leaders managing complex and intractable disputes

The Department will utilise the complaints management system to ensure **continuous learning** and accountability by:

- Collecting complaints data (including the number and types of complaints received, sources of complaints, time taken to respond) to support performance monitoring, analysis and evaluation of complaint trends.
- Providing internal and public reporting on key performance indicators in complaints management on regular basis.
